Celebration of
International Yoga Day (04)

MAASIK SAMACHAR

Health & Sanitation (04)

Food Security (05)

Environment &
Water Conservation (07)

Dear friends,

This month, our major focus was on one of our key missions of “Environment and Water Conservation”. We organised a number of events and activities leading up to World Environment Day on June 5, 2022.

This time, we went beyond the regular and aided the development of a one-of-its-kind, self-sustaining tree garden in the Hirani Kuchaman region (Rajasthan) with the use of drip irrigation and solar power.

Meanwhile, a mass tree plantation drive was recognised in the Golden Book of World Records and we are now a world record holder!

Our Swabhiman Bhoj Jaipur centre was host to the birthday celebration of the agriculture minister who benevolently donated to feed 501 people and visited the centre to serve the food himself. I always envisioned Swabhiman Bhoj as a place where people from all communities and sections come together and just peacefully enjoy their meals. Events like these fill my heart with happiness in seeing that become a reality.

This has brought me close to my dream of strengthening the human infrastructure of Rajasthan, bit by bit. Today, Ajmer is the first city to have access to safe water, nutritious food, and free digital education.

Operating in a diligent, organised manner, the foundation has been scaling its work to upgrade the overall quality of life of the regional people. My aim is to provide education, access to food, and healthcare to those living in the extremities right now. I request you to support us and our work through social media and word of mouth. This will help us reach more beneficiaries and supporters.

Jawahar Foundation celebrated Yoga Day (04)

UNESCO's state coordinator visits Swabhiman Bhoj (05)

Agriculture Minister, Lal Chand Kataria celebrates his birthday in Swabhiman Bhoj Jaipur (06)

World Environment Day celebrated (07)

Solar power plant installed for drip irrigation (08)

Tree plantation program in Ajmer; 500+ trees planted so far (09)

650 trees planted in 2 hours; makes it to Golden Book of World Records (10)

200+ bird feeders or parinde distributed (11)

JAWAHAR FOUNDATION CELEBRATED INTERNATIONAL YOGA DAY

Jawahar Yoga and Meditation centre in Sikar Reserve Police Line hosted a mega session on the occasion of International Yoga Day on 21st June 2022. All the resident police personnel attended the session with much enthusiasm.

The yoga centre was inaugurated in December last year and has been fulfilling its mission of promoting the mental health and physical well-being of the staff and their families.

UNESCO'S STATE COORDINATOR VISITS SWABHIMAN BHOJ

Mr Gopal Lal Mali, State Coordinator for State Federation of UNESCO Association in Rajasthan visited Swabhiman Bhoj in Ajmer and wholeheartedly praised the founder Mr Riju Jhunjhunwala for his unparalleled efforts in meeting the needs of the undernourished and hungry. He bought a one rupee token for himself and dined at the centre.

AGRICULTURE MINISTER, MR LAL CHAND KATARIA CELEBRATES HIS BIRTHDAY AT SWABHIMAN BHOJ, JAIPUR

In a unique event, Mr Lal Chand Kataria, Minister for Agriculture, Animal Husbandry & Fisheries Department, Rajasthan celebrated his birthday with the poor and the hungry by sponsoring the meals for 501 people for the day at Swabhiman Bhoj centre, Jaipur.

To make the day even more special, he cut a 51 kg laddoo cake at the centre and distributed among the beneficiaries. He and his team also served the meals to the people coming at the centre.

WORLD ENVIRONMENT DAY CELEBRATED

On the occasion of World Environment Day, Jawahar Foundation organised varied events and activities across Rajasthan to generate awareness amidst various sections of society. It took some important initiatives for environment conservation in the state.

SOLAR POWER PLANT INSTALLED FOR DRIP IRRIGATION

Mr Riju Jhunjunwala installed a 350W and 7.5KVA solar power plant worth INR 5 lac rupees in the Hirani Kuchaman area for a constant supply of electricity to the water pump installed for drip irrigation of the 650 banyan trees. Mr Jhunjunwala also donated the water pump.

Hirani Kuchaman is an arid region. The banyan tree saplings needed constant irrigation to stay alive which couldn't be possible the traditional way because of the paucity of water. Hence, the drip irrigation system was the only way out but it

needed a water pump and a constant supply of electricity.

On this occasion, the foundation's OSD Rajnish Kumar said, "Banyan trees live for nearly 500 years, unlike the commonly used fruit trees. Hence, we chose banyan trees to ensure the sustainability of this project. Today, renewable energy is the future and with abundant sunlight in Rajasthan, solar power was an obvious choice."

TREE PLANTATION PROGRAM IN AJMER; 500+ TREES PLANTED SO FAR

Extension of world environment day to other areas of Ajmer

The foundation has started a tree plantation program in Ajmer's Nasirabad, Kishangarh, Sarwar and Kekri. Under this campaign, 2000 trees will be planted in these regions. To protect the saplings from getting damaged or trampled over, Jawahar Foundation will also be installing and distributing tree guards around each. 200 tree guards have been distributed for Sarwar and Nasirabad regions.

Saplings planted at Head Post Office Madanganj

The employees of the post office along with the officers of the Foundation also participated in the plantation programme. Tree plantation was done in the post office premises. Generally government offices are better places to preserve trees as they are in closed premises. The Foundation is continuing the campaign to plant fruit-bearing and shady trees along with tree guards in selected government offices of the area.

650 TREES PLANTED IN 2 HOURS; MAKES IT TO GOLDEN BOOK OF WORLD RECORDS

Hirani Gram Panchayat set a record in plantation

Kuchaman city in the Nagaur district has registered its name in the prestigious Golden Book of World Records. This happened at an event hosted by the Jawahar Foundation when the dry and arid region of Hirani Kuchaman was given a new life with 650 banyan trees planted within 2 hours. The project was planned and led by Central Goods and Service Tax officer Rajesh

Kumawat. To collect rainwater, an artificial lake was also created near the site.

The chief guest of the program was Jodhpur's CGST Commissioner, Mr Rajeev Agrawal.

Representing the Golden Book of World Records at the event, judge Mr Manish Bishnoi presented a provisional certificate to recognise the successful making of a world record.

200+ BIRD FEEDERS OR PARINDE DISTRIBUTED

Ajmer Zila Patrakar Sangh, in association with Jawahar Foundation, distributed bird feeders or parinde at an event organised at the Patrakar Bhavan, Ajmer. These bird feeders were made with cement using advanced technology to ensure that they do not break easily.

Rajender Goyal, President, Jawahar Foundation (Ajmer) said, “We decided to focus purely on the birds because they are directly impacted by the

scorching heat and find it most difficult to get cool water. Birds are a very important member of the entire ecosystem and environment conservation also means taking care of those that can’t speak for themselves.”

During the pandemic too, the Foundation took special care of bird birds, cowsheds and silent livestock through its workers in all its areas.
